**SHORT BIO**  
**May 2023**

Stella Tsani is Associate Professor at the Department of Economics, National and Kapodistrian University of Athens, Greece. She holds a PhD in Economics and Business from the University of Reading, UK. She is one of the 39 new members, first in Greece, selected on the grounds of the excellence of their scientific research and the demonstrated societal engagement that joined the [Global Young Academy](#) in June 2022. She is a member of the Board of Directors of the [Euro-Mediterranean Forum of Institutes of Economic Sciences](#) (FEMISE). Stella is an invited expert member of the foresight group, coordinated by Plan Bleu, on the Mediterranean basin "[MED 2050](#)" project and an expert contributor to the [International Science Council](#) delegation to the UN2023 Water Conference and [policy brief](#). She is the lead editor of the [Handbook of Sustainable Politics and Economics of Natural Resources](#). Stella acts as scientific director and advisory board member in several European and international projects and has been selected as expert member of the Body of Knowledge as well as start-up mentor and trainer for the Cross-KIC (EIT Food, EIT Manufacturing, EIT Climate, EIT Raw Materials) initiative "[Finding innovative solutions for water scarcity in Southern Europe](#)". She has acted as expert proposal evaluator for the French National Research Agency and reviewer for the IPCC Special Report on the Ocean and Cryosphere in a Changing Climate. Stella has more than 15 years of professional experience with multi-sectoral networks across the knowledge triangle and has participated in more than 35 projects funded by national and international bodies (European Commission, World Bank, Bank of Greece, Ministry of the Environment of Cyprus, etc.). Her work applies economic methods and tools at micro- and macro- level to address questions related to sustainable development, policy assessment, sovereign wealth management (Sovereign Wealth Funds), natural resources with focus on renewables, hydrocarbons and water, Water-Energy-Food-Ecosystems Nexus, institutions, labour markets, technology innovation, economy energy and environmental modelling and scenario analysis. Her publications appear in leading economics peer reviewed journals (Economics letters, Economic Modelling, Energy Economics, Environmental Science and Policy, Business Strategy and the Environment, Economic Systems, Resources Policy, etc.) and in edited volumes. She contributes to the public dialogue and science communication with publications in the media and with participation in public dissemination events.
